Pocket 10x25

Compact and light – small size: ideal for travel, observation in the garden and for carrying with you at all times.

**HT** Ultra HT concept  
High transmission SCHOTT glass combined with FL glass ensuring a perfect target resolution in low light conditions.

**UFL** Ultra-FL concept  
Optical system containing several SCHOTT fluoride glasses for absolute colour fidelity, brightness, clarity and the finest resolution of details.

**FL** Fluoride glass  
SCHOTT fluoride glass for bright images.

**LotuTec**  
For fast and easy cleaning of exposed lens surfaces.

**T\*** Multi-layer coating for a bright, crystal-clear and high-contrast viewing image.

**FF** ZEISS FieldFlattener Technology  
Extreme edge sharpness, even with wide fields of view.

**HD** High-definition glasses  
With high-definition glasses for razor-sharp details and natural colour fidelity.

**ED** Extra-low-dispersion glass  
For bright and richly detailed viewing images.

**Magnification**  
8-fold: broader field of view and larger exit pupil for better twilight vision;  
10-/15-fold: more precise identification of details.
